

FACULTY OF COMPUTER
SCIENCE

ALEXANDRU IOAN CUZA
UNIVERSITY of IAȘI, ROMANIA

Faculty of Computer Science,
Alexandru Ioan Cuza University from Iași, Romania
in collaboration with the IT Industry

During last year, the students of the Faculty of Computer Science Iași have witnessed major changes concerning the opportunities as well as the work environment available to them. Seven of the faculty's laboratories have been refitted and equipped with the latest technologies. All of these wouldn't have been possible without seven important IT companies from Iași that eagerly responded to the request of the Faculty of Computer Science: AquaSoft, Amazon, BitDefender, Centric, Continental, Gemini Cad Systems and Levi9. In the past years, Faculty of Computer Science and many IT companies were involved in numerous academic events: <https://profs.info.uaic.ro/~itc2fii/>.

As you can see, the IT Industry in Iași is aware of the fact that successful student careers do require concrete investments in equipment, work environment and scientific initiatives. Today, computer science students have a hard time choosing their favorite laboratory because every single one of them has a piece of that peculiar company's heart.
